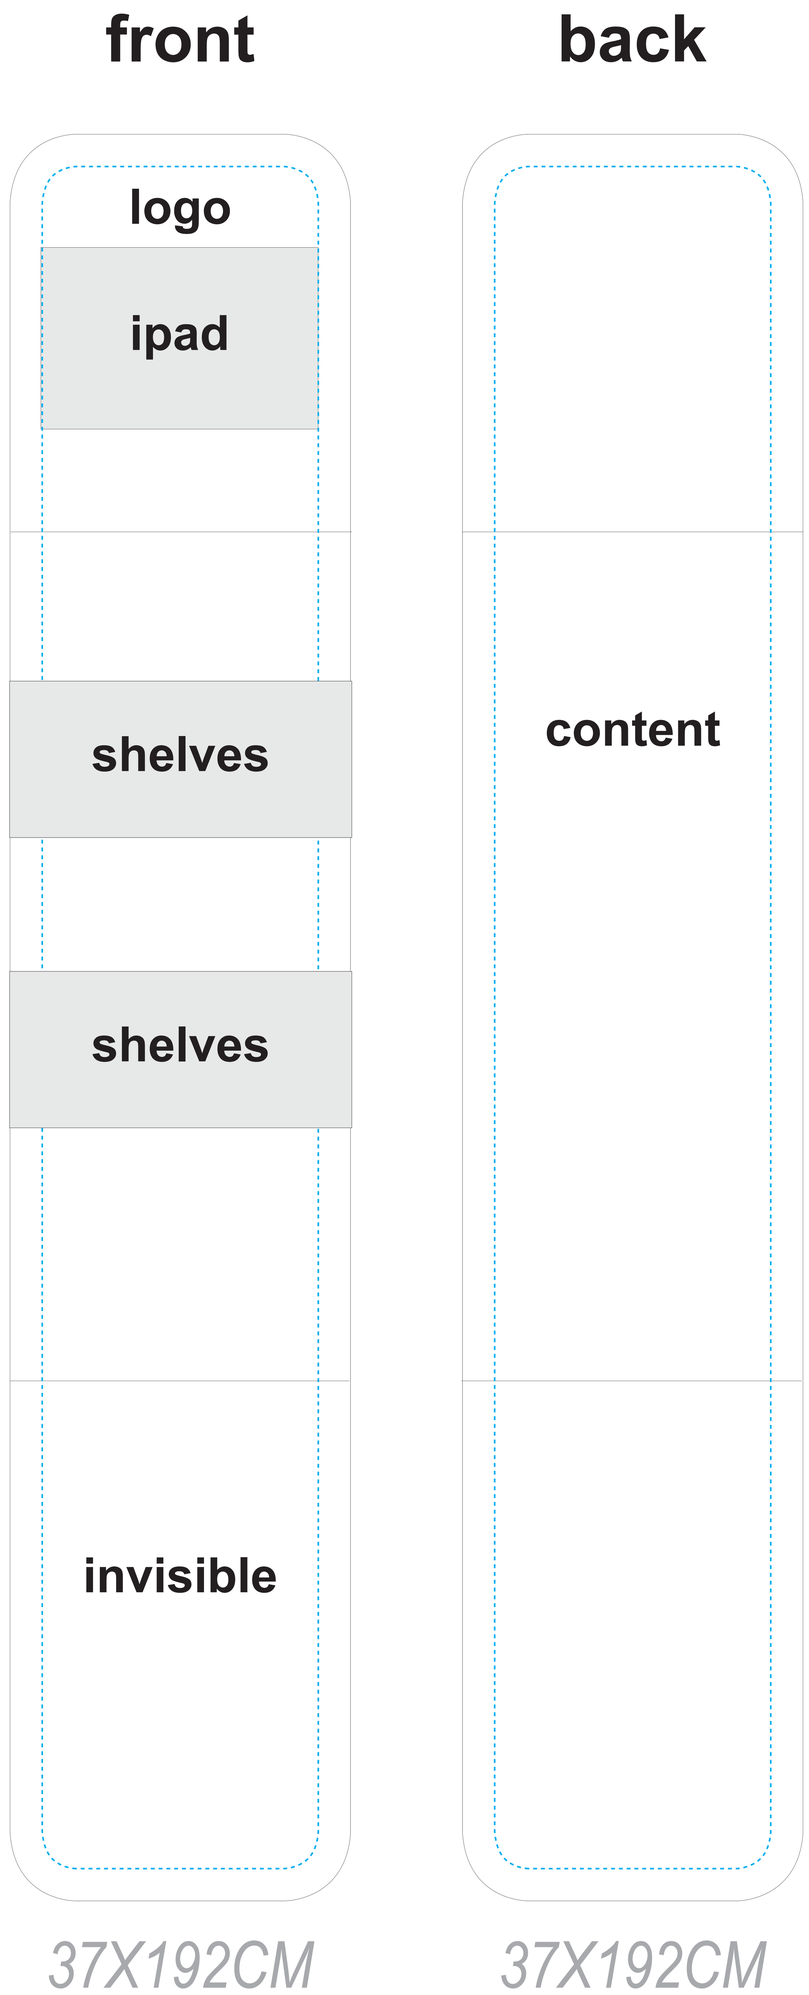
Fabric iPad and Brochure Stand Template

Finished example:



Note to Designers:

– All graphic files must be built at 150 dpi at the overall graphic layout size.

– All graphic file must be created using CMYK mode to ensure the best color matching. If you would like a specific color matched, you MUST provide a PMS color or we cannot guarantee color matching.

– It is best to flatten all images and outline all text to ensure that nothing will drop out or change during file transfer.

– Be aware of Safe Viewable Zone and Guides that may cut your important elements off. Using guidelines will keep margins on your radar and prevent mistakes.

The gray area showing approximate space covered by iPad/ Tablet and shelves.

Seam line

Please check the following before submitting:

- All company details (phone/fax)
- Correct colours are used
- Correct size banner is used
- Positioning of artwork
- Quantities
- Spelling

Please note that because of the way we see light, colours printed with ink on paper look different to colours displayed on a computer screen. It is therefore essential that the correct corporate colours be specified by the client before printing. Providing pantone colours ensures the colours are printed as close as possible to your corporate colours.

File Format : PDF and TIF
